

Why isn't there a  
smart wallet for Bitcoin?

The features that make them possible,  
miniscript and taproot, are relatively  
recent innovations of the Bitcoin protocol.

The race is on

**Smart Vaults**

Your Bitcoin. Your Rules.

Miniscript codifies rules into  
receiving addresses, making Bitcoin:

Safer to hold  
easier to Recover and  
unlocks Powerful use cases

Smart Vaults

Your Bitcoin. Your Rules.
